# Helping Students Learn

Education establishments of all age groups and foodservice organisations understand the importance food plays in the academic environment.

As well as being tasty and appealing, food should also provide health & nutritional benefits, support student development, and strengthen concentration on academic studies.

**BonCulina provides a fresh approach to the education foodservice market.**

Clients & students can be confident of a reliable foodservice solution based on BonCulina's core values:

We are committed to being a more responsible food service provider, striving towards our zero food waste vision and investing part of our profits into the 'A Meal for a Meal' CSR programme.

Through the reduction in the number of operating elements, particularly labour, and based on our innovative patented packaging and delivery systems, we not only reduce operational cost but also capital. We aspire to be different in foodservice by delivering cost efficiency and simplicity.

Our vast central recipe database is made up of quality assured and nutritionally approved meals from carefully chosen international manufacturers. This, in combination with optional operating methods offers flexibility and consistency beyond most clients' needs and requirements.
